

Protein Island Matsuyama (PIM) International Symposium 2010

Report

Program

Date : Tuesday, September 28th, 2010

Venue : Diamond Ball Room A, 4F Main Building, ANA Hotel Matsuyama

Time schedule	* Invited speaker's presentation: 35 minutes., Q&A: 5 minutes.
9:00 - 9:30	Registration
9:30 - 10:00	Opening Remarks by <i>Yaeta Endo</i>
10:00 - 10:40	<i>Naoki Goshima</i> , National Institute of Advanced Industrial Science and Technology, Japan <i>In vitro proteome analysis using genome-wide human protein expression resources</i>
10:40 - 11:20	<i>Eldon Ulrich</i> , University of Wisconsin, USA <i>Biological NMR in an Era of Large-scale Biology</i>
11:20 - 12:00	<i>George N. Phillips, Jr.</i> , University of Wisconsin, USA <i>Use of Cell-Free Production Methods for Structural Genomics</i>
12:00 - 13:30	Lunch
13:30 - 14:10	<i>Joel L. Sussman</i> , Weizmann Institute of Science, Israel <i>Intrinsically Disordered Proteins (IDPs): A Role in Nervous System Development</i>
14:10 - 14:50	<i>Daniel J. Müller</i> , ETH Zürich, Switzerland <i>Directly observing the folding, structure and function of single native membrane proteins at subnanometer resolution</i>
14:50 - 15:10	Coffee Break
15:10 - 15:40	<i>Takafumi Tsuboi</i> , Ehime University <i>Wheat germ cell-free system, a key tool for the malaria vaccine candidate discovery, found a new vaccine candidate</i>
15:40 - 16:20	<i>Thomas E. Wellems</i> , National Institute of Allergy and Infectious Diseases, USA <i>Functional features of the transporter for chloroquine resistance in falciparum malaria, PfCRT</i>
16:20 - 16:50	<i>Tatsuya Sawasaki</i> , Ehime University <i>Cell-free protein array for identification of biomarkers</i>
16:50 - 17:00	Closing Remarks by <i>Yaeta Endo</i>
17:00 - 18:00	Poster Session at Diamond Ball Room B

Organized by Ehime University, The Ehime Prefectural Government
Matsuyama City Hall, The Matsuyama Chamber of Commerce and Industry
