

Protein Island Matsuyama International Symposium 2016 Report

The 3rd Young Researchers' Meeting

Date : Thursday, September 15th, 2016
3:00 pm - 6:00 pm

Venue : Johoku Campus, Ehime University
3 Bunkyo-cho, Matsuyama, Ehime 790-8577, JAPAN

Program :

- Session 1 Oral Presentation (in English) at the Nanka Memorial Hall
- Session 2 Short Oral Presentation at the Nanka Memorial Hall
- Session 3 Poster Presentation at the Common Lecture Building B

The 14th Matsuyama International Symposium 2016

Date : Friday, September 16th, 2016

VENUE : Nanka Memorial Hall

Johoku Campus, Ehime University

3 Bunkyo-cho, Matsuyama, Ehime 790-8577, JAPAN

Program :

9:35 — 9:55	Opening Remarks by Takafumi Tsuboi (Ehime University)
9:55 — 10:25	Tomoko ISHINO (PROS, Ehime University, Japan) Rhoptry proteins have important roles during sporozoite invasion of mosquito salivary glands or mammalian hepatocytes Chairperson: Eizo Takashima (Ehime University)
10:25 — 11:05	Justin BODDEY (The Walter and Eliza Hall Institute of Medical Research, Australia) Plasmepsin V is essential for the development of malaria parasites in the liver Chairperson: Tomoko Ishino (Ehime University)
11:05 — 11:25	Coffee Break
11:25 — 11:55	Cevayir COBAN (iFReC, Osaka University, Japan) Tissue-specific immunopathology during malaria Chairperson: Junya Masumoto (Ehime University)
11:55 — 12:35	Nesrin ÖZÖREN (Bogazici University, Turkey) ASC Specks as Novel Antigen Carriers Chairperson: Cevayir COBAN (Osaka University)
12:35 — 13:30	Lunch
13:30 — 14:50	Poster Session and Presentation by supporting companies (1F, Common Lecture Building B)
14:50 — 15:20	Eiichiro NISHI (Graduate School of Medicine, Kyoto University, Japan) Nardilysin regulates intestinal tumor development through its multifaceted functions Chairperson: Shigeki Higashiyama (Ehime University)
15:20 — 16:00	Klaus ELENIOUS (Department of Medical Biochemistry, University of Turku, Finland) ERBB4 mutations. Passengers or Drivers? Chairperson: Eiichiro NISHI (Kyoto University)
16:00 — 16:20	Coffee Break
16:20 — 16:50	Ji-Won LEE (PROS, Ehime University, Japan) Unveiling novel regulatory mechanisms of osteoclasts by integrative approaches of bio-imaging and molecular omics Chairperson: Tadahiro Iimura (Ehime University)
16:50 — 17:30	Hitoyoshi YASUO (Centre National de la Recherche Scientifique, France) Chordate embryogenesis in binary mode Chairperson: Tadahiro Iimura (Ehime University)
17:30 — 18:10	Yaeta Endo (Ehime University, Japan / University of California, Santa Cruz, USA) De novo reconstitution of nucleosomes using the wheat germ cell-free system Chairperson: Takafumi Tsuboi (Ehime University)
18:10 — 18:15	Closing Remarks by Takafumi Tsuboi (Ehime University)
18:30 — 20:00	Banquet at haco, Ehime University
